

Online Stakeholder Engagement Workshop

What is stopping low carbon interventions in kidney care, and what can we do about it?

Are you a **decision maker, healthcare practitioner/staff** involved in kidney care or a **patient** with lived experiences of kidney care?

Join us, a group of academics and practitioners to a **stakeholder engagement workshop** to *offer insights* and *influence* the development of a project proposal for funding by the National Institute of Healthcare Research (NIHR) on *Decarbonisation of the health and social care system*.

Workshop Aim: To discuss planned project outcomes and your involvement in the project.

Date: 4 March 2025

Time: 12:00-13:30

Venue: Online (MS Teams)

Invite only.

Online Stakeholder Engagement
Workshop Registration

The project aims to research how we can ensure that environmental impact is considered as a core part of service planning, investment in and delivery of kidney care.

Please register your attendance in this [link](#) or the QR code above.
