# DRIVE SUSTAINABLE DIGITAL HEALTH INNOVATION:

## PARTICIPATE IN THIS SURVEY

### What will you be asked to do?

The aim of this survey is to assess the **content validity** of the Sustainable Digital Health Interventions in Primary Care Evaluation Tool.

- The survey contains questions that are part of the Sustainable Digital Health technologies in Primary Care Evaluation Tool. This tool is designed to guide the assessment of digital health technologies from a sustainability point of view.
- You will be presented with questions from the evaluation tool and asked to rate each question based on its relevance and clarity.
- You will use a Likert scale to rate each question's relevance and clarity.
- At the end of each domain, you will have a free text comment box that will allow you to provide feedback.

The survey can be accessed  
at:

### Are you eligible?

Are you a registered healthcare professional or have a healthcare IT role?

Have you been involved in the decision-making process of implementing digital health technology?

Are you currently working in the UK?

“By helping with this study, you will be helping to guarantee better sustainable implementation of digital health technologies.”
